

Exercise 2-3: for statement

14

<loop.c>

```
#include <stdio.h>

int main()
    /**** variable declaration ****/
    int i;

    /**** processing contents****/
    for(i=0; i < 10; i++){
        printf("hello: %d\n", i);
    }

    return 0;
}
```

- Write the following program using template.c and check the execution result.
- Filename: loop.c
- Compile:

```
$ gcc -Wall -o loop loop.c
$ ./loop
```
